

Gold Line Environmental Impact Statement (EIS) Contact Report

Date of contact: 7/19/2008
Meeting: Wheat Ridge 2020
Presenters: Andy Mountain
Number of Attendees: 45
Purpose: Provide overview of DEIS and comment process

Meeting Summary/Key Issues

Andy Mountain attended the Wheat Ridge 2020 bi-annual members meeting to announce the release of the Gold Line Draft Environmental Impact Statement and provide an overview of its key findings. Andy emphasized the significance of this milestone and the importance of public input during this project phase. He discussed the various opportunities for public involvement during the 45-day DEIS comment period, including the public hearings in early August.

Following the presentation Andy Mountain participated in a question and answer session. Some questions focused on recent speculation that some FasTracks corridors may be shortened to mitigate the rising costs of construction. Andy assured the attendees that there are currently no plans to shorten the Gold Line.
