The G Line is part of RTD’s 2004 voter-approved FasTracks plan to expand transit across the Denver metro region.

The 11.2-mile electric commuter rail line will connect Denver’s Union Station to Wheat Ridge, serving northwest Denver, Adams County and Arvada.

The line will feature seven stations: 41st•Fox, Pecos Junction, Clear Creek•Federal, 60th & Sheridan•Arvada Gold Strike, Olde Town Arvada, Arvada Ridge and Wheat Ridge•Ward.

It is part of the larger Eagle P3 project that is also building the University of Colorado A Line and the first segment of the B Line.
