

Gold Line Environmental Impact Statement (EIS) Contact Report

Date of contact: 10/13/2009
Meeting: Inspiration Point Neighborhood Association
Presentation
Presenters: Megan Lane
Number of Attendees: 12
Purpose: Provide general overview of RTD FasTracks program
and an update on the Gold Line project

Meeting Summary/Key Issues

Megan Lane presented at the regular meeting of the Inspiration Point Neighborhood Group. The presentation overviewed the Gold Line Environmental Impact Statement process, the Preferred Alternative and the next steps for the project (e.g. ROD, final design, construction, etc.). Particular attention was given to the Sheridan station, since it is the closest stop for the Inspiration Point neighborhood. Questions focused on the public involvement process – particularly how senior citizens' input was utilized – and on FasTracks funding. Megan provided information on the Eagle P3 in response to attendees' inquiries.
