

Gold Line Environmental Impact Statement (EIS) Contact Report

Date of contact: 12/11/2006
Meeting: Mountain View City Council Study Session
Presenters: Don Ulrich, Liz Telford, Julie McKay
Number of Attendees: 5
Purpose: Discuss alternate alignments affecting Mountain View and provide EIS overview

Meeting Summary

Don Ulrich, Liz Telford and Julie McKay attended this Mountain View City Council Study Session to discuss the Gold Line's alternate alignments through Mountain View and provide an overview of the Environmental Impact Statement (EIS) process. In addition to providing the attendees with a project background, the Gold Line team also showed maps and information on each of the alternatives currently under consideration. The team focused on the alignments through Mountain View.

The EIS schedule was discussed, and the project team talked about the upcoming opportunities for public involvement. Following the presentation, the project team conducted Q&A with the meeting attendees. The City Council members were mainly interested in discussing potential impacts of alternate alignments to businesses/residents of Mountain View.
