124th Option 1 Concept

DESCRIPTON: The North Metro project team created this concept from public and agency input. It incorporates the location suggested by the North Metro Major Investment Study 2001 and the Three Corridor Study 2005. Parking would be at northwest corner of realigned Claude Court and 124th Avenue

2015 Parking Demand: High (500-750 spaces). Proposed Parking Lot: Large (520-1,000 spaces, plus up to 90 spaces east of platform along 1st Street).

124th Option 2 Concept

DESCRIPTON: The North Metro project team incorporated RTD FasTracks TOD concepts as well as City of Thornton concepts into this station option. Parking would be located west of realigned Claude Court and south of the Adams 12 building. (Note: The project team did not update the sketch, but accounted for the TOD and Thornton concepts in the 124th Option 2 footprint).

2015 Parking Demand: High (500-750 spaces). Proposed Parking Lot: Large (700 spaces, plus up to 90 spaces east of platform along 1st Street).
