

1st Quarter Quality Recognition Award

Edward Kraemer & Sons (EKS) was recognized by DTCG and RTD with the 2010 1st Quarter Quality Award for the assembly of the 6th Avenue Bridge Arch structure. Their recognition was determined by their excellence in pre-planning and timely execution of the activity per project specifications, upholding open-lines of communication with the production and quality teams, dedication, professional commitment, proactive approach and cohesiveness with the group. Great job EKS! Your commitment indicates continued success for the West Corridor Project.

2nd Quarter Quality Recognition Award

Slaton Brothers was awarded the 2nd Quarter "Quality Recognition Award" for their outstanding performance while constructing MSE Walls D-11 and D-12 near the Perry Street station. Slaton Brothers has been a valuable team member throughout the project and their input during design and value engineering was immeasurable. Slaton Brothers established a written and approved Quality Control Manual and continually identifies ways to improve their internal QA/QC program.

Throughout the 2nd quarter, Slaton Brothers did not receive any nonconformance reports, oversight inspection reports, field notices or change notices. Nor did they incur any safety violations. Congratulations Slaton Brothers! Your hard work continuously contributes to the success of the West Corridor construction project.

3rd Quarter Quality Recognition Award

DTCG's Cast-in-Place (CIP) Crew 1 is the recipient of the 3rd Quarter DTCG "Quality Recognition Award". CIP Crew 1 was nominated for their unprecedented quality in the construction of Cast-in-Place (CIP) walls throughout the West Corridor project. CIP Crew 1 has reduced overall project costs while maintaining a high level of production. Through innovative design strategies of walls and overhead catenary

system foundations, and the creative use of formwork, the CIP Crew 1 completes the job without sacrificing quality. This crew keeps a safe jobsite in challenging construction conditions including the close proximity to excavation operations and areas that require fall protection. In addition to the quality of their work, CIP Crew 1 has shown tremendous enthusiasm and teamwork. They enter their jobsites with the mindset that "we all wear the same logo on our hardhats". They are highly respected and have made enormous contributions to the West Corridor's progress. Hats off to Crystal Lutgens CIP Crew 1; they are very deserving of the 3rd Quarter "Quality Recognition Award." Congratulations!

4th Quarter Quality Recognition Award

DTCG's Storm Water Management and Erosion Control team (SWMP crew) was awarded the Fourth Quarter Quality Recognition Award for their performance while installing the Lakewood Gulch diversion for construction of the Decatur Bridge. The crew boasted a record of zero accidents and zero non-compliance reports for the fourth quarter. The SWMP crew demonstrates high quality workmanship continuously and meets or exceeds all goals and deadlines. Their nick name – "the go-to team" indicates their willingness to assist wherever they are needed. Congratulations to Paul Deeley the SWMP Team making a difference on the West Corridor!
