

## JEFFERSON COUNTY GOVERNMENT CENTER STATION QUICK FACTS

### **Station Description**

The change of location for the Jefferson County Government Center Station is part of an Environmental Assessment (EA) now underway. The plan now calls for the end-of-line station to the east of the Jefferson County Government Center. The EA is due to Federal Transit Administration for review in late December 2006.

Due to the change of alignment, the design team will continue to refine the new proposed station and structured parking layout for the end-of-line. The initial plans include one center and one side platform. Other facilities include bus transfer facilities, a kiss-n-Ride drop off, and a structure for 600+ parking spaces. The parking structure will be multiple levels with elevators and stairs providing access to the station.

### **Station Access**

- 79 percent of individuals will access this station by automobile in 2025.
- 19 percent of individuals will access this station by bus in 2025.
- 3 percent of individuals will access this station on foot in 2025.

### **Parking**

RTD and the design team will continue to refine the new proposed structured parking layout for the end-of-line.
